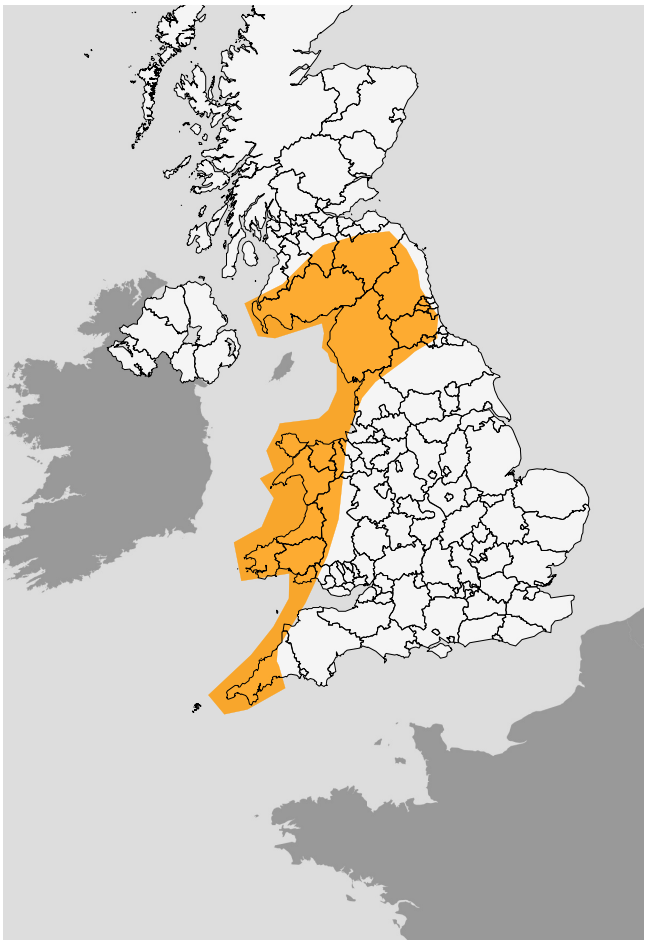
Amber warning
Extreme Heat

Between
00:00 Mon 18 Jul 2022 and
23:59 Tue 19 Jul 2022



A hot spell is likely to develop from Sunday, likely peaking early next week, leading to widespread impacts on people and infrastructure.

What to expect

- Adverse health effects are likely to be experienced by those vulnerable to extreme heat. Government advice is that 999 services should be used in emergencies only; seek advice from 111 if you need non-emergency health advice.
- The wider population are likely to experience some adverse health effects including sunburn or heat exhaustion (dehydration, nausea, fatigue) and other heat related illnesses
- Some changes in working practices and daily routines likely to be required
- An increased chance that some heat-sensitive systems and equipment may fail, potentially leading to localised power cuts and the loss of other services to some homes and businesses
- More people are likely to visit coastal areas, lakes and rivers leading to an increased risk of water safety incidents
- Some delays to road, rail and air travel are possible, with potential for welfare issues for those who experience prolonged delays
